An interactive read aloud of "The Fine, Fine School" in **Ms. Tracy Pastelak's** class at **Wallace** resulted in students NOT being in support of going to school on Saturdays, Sundays, or holidays. Great conversation about literacy!

Mr. Glenn Medice's class at **Trimmer** has been calculating volume & metric conversions. A student asked, "So just how big is a cubic meter anyway?" Mr. Medice suggested they build one and find out... so they built two!
